

## MOCK INTERVIEW ASSIGNMENT

The assignment is aimed to assess your presentation, documentation, and analysis skills.

- Choose a digital product and prepare some slides containing following information:
  - An overall workflow to demonstrate how the product works, including how it interacts with users and other systems if applicable.
  - An Entity Relationship Diagram (ERD) of the product or a feature in case your chosen product is huge.
  - Breakdown of Epics and User Stories. Pick at least 1 story and specify full details.
- You are recommended to select a product that you have participated in. However, if you have not had any experience before, you can create your own.
- This assignment should not take you more than 5 hours to finish.
- You will be asked to present this assignment in the interview, so please make sure to make it detailed, but brief enough for a 10-minutes presentation.
- You are allowed to choose either English or Vietnamese for your presentation, but English is preferable.
- It is not required, but you can send the slides to Na's Stories in advance if you are comfortable.

Wish you all the best!
